The Prospect of the Crops.

We hear but one story from all parts of the State, as to the prospect of the crops. It is the universal testimony of Farmers and Travellers that the country never looked so well as it does now. There is an immense amount of grain rapidly maturing and, with the continuance of good weather, Wisconsin will raise this year an enormous surplus.—Prices, too, promise to be satisfactory; and altogether the prospect for 1860 is as favorable as could be wished.

DEATH OF A CONGRESSMAN.—The veteran Major SCHWARTZ, M. C. from the Berks District of Pennsylvania, died at Washington during the night of the 21st inst. He has been unwell of jaundice all the session, though, within a few days, he has been in constant attendance in the House. During the speakership contest he was sick, but would vote, when, to go to the House, seemed to endanger his life. He has not spoken for a few days. His last remark was, that he must go up and vote to retain ANDERSON in his seat. There was no need of his vote but the honest, plain old man had no wish but to do his duty. The remark was characteristic of him.

THE NORTH-WESTERN RAILROAD.—We see it stated that the people of Appleton are to vote on the 2d of July, as to whether that city shall issue its bonds to aid the extension of the Chicago and North-Western Railroad from Oshkosh to that point.

We mention this fact to urge upon our merchants the necessity of *prompt action* in regard to the Ripon and Wolf River Road. If the people of Menasha and Appleton have any reliable assurance of the immediate completion of this road, they will not be likely to give any aid to the North-Western Road; for they are far more anxious for a Railroad to Milwaukee than to Chicago. It is still in our power to deprive Chicago of the prize she imagines so secure. Shall we not do it, when so little is required, on our part, to accomplish that end?

LINCOLN IN WALWORTH COUNTY.—A friend at Whitewater Walworth County, under date of the 19th inst., writes:

"The LINCOLN men to-day raise a "LINCOLN Rail," 120 feet long, in this place, from which will float the Stars and Stripes, bearing the names of "LINCOLN and HAMLIN." Under this sign we shall conquer. There is not opposition enough to create any excitement. Everybody and their wives are LINCOLN men."

A "RAIL" FOR BERLIN.—We saw at the American Express Office in this city, yesterday, a genuine "LINCOLN Rail"—one of the 3000 split by "Old Abe" when he first came to Illinois - destined for Berlin, Green Lake County. The Green Lake Republicans expect to give about 1200 majority on that "rail."

The Seceders at Baltimore.

From the Dispatch to the Cincinnati Commercial.

BALTIMORE, June 20—9 P. M.

The city swarms like a bee hive. All parties know that the fight comes in the morning. Immense crowds fill monument square. The usual rival mass meetings are simultaneously roaring. Two sets of speakers are *ding donging* and playing the same old *rub-a-dub* tune for and against Douglas—a thousand voices keep incessantly crying "Yancey! Yancey!"—bands playing—Roman candles exploding—side walks thronged everywhere.

In my judgment there will be two conventions by to-morrow evening. Douglas will be nominated by his Convention, with Johnson of Ga., for Vice President. They may nominate Douglas to-morrow night, but probably not until Saturday morning.

The Seceders are talking of Lane and Breckenridge for their Presidential candidate and of Jefferson Davis, Caleb Cushing and Fernando Wood, for Vice President. They are confident of carrying nearly all the Southern and the Pacific States.

The Douglasites claim all the States except Massachusetts, Vermont and Mississippi.

Cool men concede Lincoln's election, or that the election will be thrown into Congress.

Citizen Corry is here, in at the death. He has been requested to make a speech for the Southerners, but declined, through consideration for his old friends, George Sanders and Soule.

10 o'clock, P. M.

The Yancey crowd in Monument Square the biggest and the noisiest. Yancey made a great speech. He denounced the Douglas faction as small men with small, selfish measures. He said, they are like the ostrich with its head in the sand, and did not know that its ugly, ragged body was exposed. He said whoever charged him with being a disorganizer and disunionist lied. He boldly denounced the Douglas speakers at the other stand as pettifoggers and cowards. The crowd gave him nine cheers.

Gov. Todd, of Ohio, will preside over the Douglas Convention after the retirement of Cushing.

10 1-2 o'clock p. m.

The speeches before the rival mass meetings were bitter, beyond expression. Yancey's speech was one of the mildest. Many exasperating personalities were uttered on both sides. A Douglas delegate from Penn. said if any delegates seceded from that State, they would not dare to return to their homes. He said, too, that if the Convention did not nominate Douglas, Lincoln would be President. The Douglas caucus has decided that Stuart, of Michigan, Cessna, of Pennsylvania, and Church, of New York, shall make their fight to-morrow. No possible reconciliation can be effected. The hostility is intensified every hour. The party is irrevocably divided.

LATEST—11 P. M.—The Douglas meeting is played out. The Southerners still going on—two thousand strong. Hunter, of La., has just made an awful speech. He said there were members of the Committee on Credentials who should not cross his threshold; a lady of his family should not speak to them. They were without honor or decency. The Douglas men had bragged continually, and in bragging lied, and knew they lied.

They talked of Douglas carrying the seceding States. The Louisiana delegation would bet a million of dollars that Douglas couldn't carry one Southern State. He dared Douglas men to bet. He said Douglas and his followers were bankrupt in pocket, and principles, that they were profligates and impostors, and their mask should be torn from them, and their black deformity exposed. He spoke of fighting, and his readiness for it. In short he made the bitterest speech I ever heard.

Summer Drinks.

Certainly, Lemonade, Mint-julips, Soda Water, and the inevitable Lager—all summer drinks—Buttermilk is not included.

Summer drinks ought to be cooling, but they aint. Soda water makes a gasometer of you; it is like drinking soap suds—or hold!—like swallowing a mouthful of magnetized whirlwind, that makes a water spout of your nose, and tinkling cymbals of your eyes—Apple rolls themselves wouldn't keep it down peaceably. Soda water is vanity in a fluid shape. Boiling wind. The very negative of all drinks. There is a certain kind of cake made by the confectioners out of whites of eggs, and called kisses, that ought to accompany this beverage. We never see a lady at the soda fountain taking in a supply of carbonic acid, but we fancy we can also see her crinoline expand, as though Prof. Lows was managing the inflation, and we expect her to go richochetting over the dry goods boxes and curb stones like a thistle down.

There is a summer drink compounded principally of ice—with some water, a little lemon, and colored with wine, and a taste imparted by sugar. These, we believe, are lemonades and are, imbibed slowly—sometimes indolently and always sensually thro' a straw. There is something natural, if not sensible in this. When you see fellows half dozing, with straws in their mouths, you may conclude they are coming down to first principles.

Lager is a Summer drink, for the reason that it is the drink at all seasons. In moderate doses, it quiets the nerves and pulls down the eyelids; dissipates ambition; upsets the brain; makes a delightful fool of you; full of yawns and laziness. In large doses, it is apt to turn you inside out. Lager, as a Summer drink, should be prohibited outside of Sleepy Hollow.

What shall we drink? Well, now we intended, when we commenced this article, to bring to your notice a beverage called water. But as we have since remembered the peculiar nastiness of that article in Milwaukee—to say nothing of its scarcity—we confess that we are at a loss how to end this article properly.

Milk we want for ice cream. MURISON buys up all our milk. What shall we drink until it rains and fills our cisterns.

WIARD'S LOCOMOTIVE PASSENGER SLEIGH.—Mr. NORMAN WIARD yesterday exhibited his working model of the Ice Boat at the Newhall, to a number of interested gentlemen, with the most complete success. The model itself is an accurate and beautiful representation of the boat now at Prairie-du-Chien. It is placed upon a platform or table, and propels itself readily, Mr. WIARD explaining its operations meanwhile.

The passenger sleigh consists of a cabin or car resting upon what is most properly called a boat, to which are attached four runners or shoes, and is propelled by a driving wheel, the periphery of which is furnished with teeth or blades to give the required friction when in contact with the ice.

Mr. WIARD's invention has already been so fully described in our columns that any further attempt is unnecessary. We cannot, however, avoid adding our testimony to the efficiency of the machine. It certainly is all that the inventor claims. The many practical machinists and scientific men who have inspected it are of one opinion in regard to the value and success of Mr. WIARD's labors.

As has been triumphantly stated, "it is in the contrivances hit upon for adapting the boat to circumstances apart from plain skating that the genius and success of the inventor are especially shown. *Ice may be uneven,* and accordingly, the four runners have all needful freedom of movement about their centres; and the driving wheel itself, instead of being rigidly fixed by the crank-shaft to the body of the Car, is attached to the frame of the after runners, and pressed upon the ice by springs, the degree of pressure adjusted by screws, so as just to secure the required traction, and yet yield when passing over hummocks or ridges without affecting the hull. Besides, by an application of the power of the engines, the whole Car, either in motion or at rest, can be elevated along the pedestals of the runners, so as to pass snow, leaving the wheel bearing on the ice as before, or, when desired, the wheel can be lifted so as to clear the surface."

This sleigh is an absolute want of the Western country. There are hundreds of towns along our northern rivers that are isolated every winter. Hitherto the ice king has blockaded these settlements, but Mr. WIARD is destined to override all obstructions and we hope before many years to be able to hear that the ice boats are carrying passengers and provisions all along those great ice streams of the North—and into settlements where until now not even steam could combat cold.

If perseverance deserves success Mr. WIARD eminently deserves well of Wisconsin, and of his country. He has labored most indefatigably in the consummation of this noble undertaking, and there is no one will now dare to say he has failed.

GOOD TEMPLAR'S PIC NIC.—The Union mass excursion of the Good Templars takes place on Wednesday next. The cars will leave the depot of the Milwaukee & Mississippi R. R. at 8 o'clock A. M., arriving at North Prairie at 10 o'clock A. M. This will be one of the pleasantest rides imaginable. The arrangements made by the committee insures to all who attend a glorious day of recreation. Tickets for lady and gentleman $1.

THROUGH the kindness of Mr. MEYERS, Secretary of the River and Lake Shore Railway, the Orphans of the Protestant Asylum enjoyed a delightful ride on Thursday.—Their smiling countenances testified how well they appreciated the kindness.

Milwaukee Enterprise.

For the Sentinel.

The new Steam Towing Boat, *Col M. Steever,* built by Capt. BECKWITH, of Racine, for a company organized in Milwaukee, under the name of "The Milwaukee, Chicago and St. Louis Steam Towing and Freight Company," has been lying in the Menomonee for some time to have her engine, &c., put in. Good judges pronounce her one of the best made craft, for the purpose for which she is designed, that was ever seen in these waters. Her engine is a model piece of workmanship, and her finish is very creditable to the parties interested.

She is designed for towing from Chicago to St. Louis, and is built with sufficient strength and power, for similar service in Southern waters, in the winter season at least.

The officers of this Company are: President, L L LEE, who goes with her as Captain; Secretary, M. W. LEE, who goes with her as Pilot and Machinist, and ISAAC KINGSLEY for the Board of Directors for the Company—the latter gentleman also accompanies her as the general business man. If an enterprize of this kind can succeed, this must, as their expenses will be very light.—The managers above named are all working, saving men, and not ashamed to soil their hands and clothes with the marks of honest toil, and combines an array of business talent seldom found on one boat.

As this boat is designed for a Southern trade, and is naturally liable to be suspected for indulging in sympathy with underground work, we think they were particularly fortunate in the name they adopted. No man's views on the exciting subject of Slavery are more fully national, or better understood and defined, than those of our worthy Postmaster, Col. M. STEEVER, after whom the boat is named. All will remember his manly speech made in the Legislature of 1858, on the Kansas question. In order to refresh the memory, we will make a few extracts so that others may judge of them as well as we.

After fully discussing the Kansas question, and defending the Administration in its course in reply to the Hon. B. G. NOBLE, our present talented Lieut. Governor, he says:

> MR. CHAIRMAN:—My task would now be ended, if I had nothing but the resolutions under consideration to dispose of. But, sir, the gentleman from Walworth has traveled out of the record and devoted the greater part of his speech to the subject of Slavery. * * After establishing the right to buy servants, (Liv. 26 chap., 44, 45 and 46 verses) he says: This law, sir, emanating as it does from a Court of *last resort,* is to my mind, and should be to every honest mind conclusive, that slavery is not a crime, but was established by one whose authority, or whose right to do so, no well trained Christian mind can question. * * * *
>
> He, who, in thunder tones, spoke from Mount Sinai to his servant Moses, and said, 'thou shalt not kill, thou shalt not steal; also said of them, shall ye buy; they shall be your possession; ye shall take them as an inheritance for your children after you; they shall be your bondmen forever.' Without trampling under your unhallowed feet this sacred volume, you cannot reconcile this inconsistency.
>
> The commandment of "them shall ye buy and they shall be your bondmen forever," is anathematized as a crime of a deeper dye than those crimes which are positively prohibited. Again, the same law which prohibits killing, stealing, &c., also says, "Remember the Sabbath day to keep it holy," which is acknowledged in full force by the Christian world, further says, "Thou shalt not covet thy neighbor's man-servant, nor his maid-servant;" yet we find some pious souls distressed beyond measure when they see the Sabbath desecrated, but boast of belonging to a gang of thieves, who not only covet, but actually steal and carry away, on what they boastingly denominate the underground railroad, their neighbor's man-servant and maid-servant. How men, who profess to believe the teachings of this holy volume, and profess to love and reverence its author, can reconcile their bitter denounciations against him as the author of so damnable a crime, has long been inexplicable to me.
>
> Mr. Chairman, let us turn our attention to another phrase in the position assumed, that "equals are not the subjects of property to equals." The authority already quoted, abundantly maintains this position.

After establishing the inferiority of the colored race, he says:

> These two races thus widely diverging in natural endowments exist in this glorious Union in juxta-position and what, I ask, does reason, common-sense, the evident design of the Almighty, as written upon the structure of each, indicate as their true relations.
>
> The superior and predominating race adopts for itself a system of Democracy those who are equal by nature are made equal by law, those organized alike and endowed alike, and evidently designed by their Creator for like purposes for the exercise of the same rights and the performance of the same duties are protected in those rights, and compelled to perform these duties. The race inferiorly organized and endowed is no more capable to fulfill the purposes assigned to the superior by the Almighty, than to change the color of their skin. Away, then, with your sickly cant about *equality*; it is a thing that does not and cannot be made to exist."

This vessel built by a company that sufficiently esteem a politician entertaining and boldly avowing such sentiments in this latitude, as to adopt his name for their boat, will not be likely to engage in anything that might give just cause for suspicion. She started on her mission yesterday, with the best wishes of all who esteem honest enterprize in our city, and we bespeak for the men in charge of the boat, the same confidence in their new field of labor and enterprize which they have long enjoyed in our city.

MILWAUKEE.

VISITORS FROM THE FAR EAST.—Among the numerous arrivals at the Newhall House yesterday, were Messrs. REED and CRAMENUS, prominent merchants from the Island of Java, who visit Wisconsin on a tour of pleasure and observation. It will be seen from the communication of our friend, Capt. WHITING, of Winona, Minnesota, that these gentlemen are old acquaintances of his, and that he had the good fortune to fall in with them on their trip across the lake in the steamship *Detroit.* Mr. REED is an American by birth, and Mr. CRAMENUS a Hollander.

A SURPRISE VISIT.—The High School of Racine under the charge of Prof. J. G. McMYNN, accompanied by about twenty teachers, yesterday paid the Seventh Ward High School of Prof. McKINDLEY, a sudden visit. They found everything in apple-pie order, however, and between ninety and a hundred scholars ready to welcome them.

Mr. McKINDLEY made a short speech greeting them, and Mr. McMYNN replied in an appropriate and happy manner. During the afternoon, the visitors took a running look at Milwaukee, and then returned home.

THE PATTI CONCERT ON MONDAY.—There is every prospect of a crowded house at Albany Hall, on Monday evening, to hear PATTI, Madame STRAKOSCH, BRIGNOLI, FERRI, JUNCA and that admirable pianist, MAURICE STRACOSCH. Already some four hundred seats have been secured, but there are plenty left, and people can see and hear as well in one part of Albany Hall, as in another. The programme sparkles with gems and the Concert will doubtless be the best one we have had in Milwaukee these many years.

LINCOLN AND DOUGLAS.—The discussions between these two gentlemen, during the memorable contest in Illinois in 1858, have been printed in pamphlet form and copies may be had at the news depot of W. E. TUNIS & Co, on Wisconsin street. Politicians and others will do well to supply themselves with the document.

The Mayor—How his Veto is Viewed in the Third Ward.

Editor Wisconsin:—It is with no little degree of surprise that I read in the *News,* of Wednesday morning, a message from the Mayor, styled a "veto," in which he denies the right of the people of the Third Ward, through their representative in the Legislature, to pass a law *authorizing and directing* the Mayor and Common Council of the city of Milwaukee, to purchase property for a certain purpose for the use and benefit of the Third Ward, and *chargeable to the property of said Ward.* I say surprised when the Mayor well knew, as the recent election has demonstrated, that the people of the ward were *unanimously* in favor of a Market Square; but it may be that in obedience to the innate feelings of his nature, which are aristocratic, he has forgotten that he is Mayor, by the will of the people who are democratic, and who hold that the *sovereign power is lodged in the people.*

If he has thus far forgotten the principles of the party to which he claims adhesion, I beg to inform him that the day is not far distant when he will be made to learn that what is democracy in *name,* will not on all occasions, be considered by the people Democracy in *practice.* The people of the Third Ward are noted for their fidelity to party, and would no doubt sacrifice much for the sake of party; but they have certain vested rights which have been exercised by the residents of other Wards, one of which is the right to tax their own property for a necessary improvement, and that right they will not surrender, even though the Mayor should issue an hundred imperial edicts.

The Mayor, in his veto, says:

"To carry out the design of the ordinance, would require either an appropriation of thirty or forty thousand dollars of money which we have not got; or the issue of that amount of city bonds, which is no where authorized."

SEC. 2 of the act of the Legislature reads as follows: "To provide for the liquidation of the debt incurred in the purchase and improvement of said property, there shall be set apart and appropriated, for a period of ten years, out of the gross amount annually raised by taxation in the Third Ward of the city of Milwaukee, for ward purposes, the sum of four thousand dollars per annum: the Aldermen and Councillors of the Ward shall in one case appropriate any party of the above named sum for any other purpose than that specified in the foregoing section of his act."

Now, Mr. Editor, "to carry out the design of the ordinance," would *not* "require an appropriation of thirty or forty thousand dollars of money, which we have not got, or the issue of that amount of city bonds, which is nowhere authorized," and the Mayor is well aware of the fact; and he thus seeks, by misrepresentation, or a lack of financial knowledge, to screen himself from the just indignation of a people who, in view of the confidence reposed in him, as evinced by their votes at the polls, deserved better treatment from his hands. The Mayor, if he desired to carry out the requirements of the law, and thus comply with the wishes of the people, could very easily learn that the owners of property in the block in which the market *is* to be located, asked nothing more than a mortgage on the property sold, and the issue of notes payable yearly, bearing 7 per cent. interest. This once done and the property paid for, it is within the power of the Mayor, with the consent of the Aldermen and Councillors, to re-mortgage the property, and raise money for the erection of the necessary buildings. By this process it will *not* "require an appropriation of thirty or forty thousand dollars of money which we have not got, or the issue of that amount of bonds, which is nowhere authorized," to purchase six lots and erect a market house thereon.

The Mayor, in his veto message, would have the people of the ward believe that this act of the Legislature, will impose upon them an additional tax, greater than that of former years, when, by an examination of section 2 of the law, it will be seen that it is payable out of the ward fund, which, if the requirements of our City Charter are not disregarded, cannot exceed $12,000 per annum—an amount which has been expended annually, and in many cases overreached, within the last few years—thus taking from the officers of the ward $4,000, and appropriating it towards the payment of an improvement that will eventually redound to the benefit and credit of the Ward.

One would imagine, by reading the Mayor's Imperial Edict, that the government, of which he is the presiding officer, is carried on with a view to "economy," and protecting the "*poor man's*" interests, while, by referring for a moment to the police department, it will be seen that such is not the case. He tells us about exorbitant taxation, and in order to avoid it, says the High Schools have been closed, the Fire Department curtailed in its expenditures, the salary of all the city officers reduced, but he does not tell us that our city has been peaceable, few, if any burglaries committed; and that notwithstanding, to show his love for the "tax-payer" and the "poor man," he has *increased* the police force, at a cost to the city, over last year, of $2,000; which, in ten years, would be half the amount contemplated to be expended for a Market Square in the Third Ward. I would advise the Mayor, before *preaching* economy to the people of the Third Ward and city, to *practice* it in the various departments of his administration. I will also take the liberty of informing him, that for his kind interposition, to protect the interests of the people of the Third Ward, against their will, as expressed at the late election, he will, no doubt, in case he can be again *persuaded* to allow his name to come before the public, receive a flattering and complimentary vote.

A DEMOCRAT.

SOMETHING FOR THE LADIES.—A new invention has recently appeared, which, altho' useful to everybody, is specially claimed by the ladies as being exactly suited to their wants and requirements. They are delighted with Spalding's Prepared Glue. It brings up no disagreeable associations of sticky glue-pots and stifling odors, but is merely a clear transparent liquid, in a pretty little bottle, with a small accompanying brush, fit to stand on the daintiest toilet table in all the land, with cologne and perfumes and China trifles. And so useful it proves, too, if any accident happens to the ten thousand little knick-knacks that ladies delight in. No sending to the manufacturer for repairs, at an expense scarcely less than would attend the purchase of a new article. A few of the crystal drops, skillfully applied by fair fingers, will set all right. For furniture, for work-boxes, for books, for *everything,* it is a perfect little family physician! The amount of money that one of these bottles can save in a month, would seem almost incredible, and ladies rely on their Prepared Glue as a sort of magician that can effect everything! And they *know,* too. When any article of domestic reform meets the enthusiastic sanction at their hands SPALDING's Prepared Glue has received, you may be pretty sure it is something worth having on your closet shelf.—*From the New York Dispatch, Oct.* 1, 1859.

A VERY PLEASANT FARCE called "Heenan and Sayers," was enacted at the Academy of Music on Thursday evening. The two Champions were most laughably represented, and peal after peal of laughter greeted them in the several rounds. The piece is from the graceful pen of Mr. SIMCOE LEE, Esq, who personated one of the characters therein.

OUR SUMMER WEATHER.—We doubt whether a finer Summer climate can be found anywhere than that which the good people of Milwaukee enjoy. Certainly, no one ever experienced more delightful weather than we have had through the month of June. The sunshine has been brilliant; the showers timely, and not too frequent; and the Lake breezes have deliciously tempered the Summer heats.

PROF. J. H. STEINER, the celebrated æronaut, will positively be here on the Fourth of July to make an ascension in his large Balloon. Word was received from him yesterday giving directions for the necessary arrangements. This will add much to the forth coming celebration, and as the Professor intends if possible to fulfill all he promises to, we can unhesitatingly invite our country friends to be on hand.

A Pleasant Meeting.

Correspondence of the Sentinel.

STEAMER DETROIT, June 22nd, 1860.

FRIEND KING:—You have often, I do not doubt, heard of "singular coincidences," but I trust that the following may not be considered, altogether uninteresting:

While making the delightful traverse of Lake Michigan on board the staunch steamship *Detroit,* this morning, I became engaged in pleasant converse with a gentlemen on the Upper deck, and some allusion was made to India and the lovely Isles of the East Indian Archipelago. During the conversation, one of the gentlemen said he was from Java, and on my telling him that I had frequently been there, he appeared interested in the conversation. I told him that on a former India voyage, I had spent some delightful hours at the palatial residence of Mr. ALFRED REED, an American Merchant at Batavia, and to my enquiry, "if he knew him," he replied, "*ecce homo,*" and then, sure enough, on the deck of a Lake Steamship, in what was not, long since, considered the "*terra incognita*" of the Western World, I had a delightful meeting with the gentleman whose hospitalities had shed an almost sacred charm around my India memories.

Most singular of all, I had in my carpet-bag a lecture which I had been delivering at the East, entitled "A Voyage Around the World;" and in it was incorporated a description of the palatial edifice of Mr. REED, at Weltevreden, near Batavia. He insisted that I should read it for his gratification, and that of his friend, Mr. CRAMENUS, an old Hollander, long a resident in Java, and whose princely hospitality has been often enjoyed by Americans in that Orient Land.

This happy meeting, so pleasant to me, Captain McBRIDE, the able commander of the *Detroit,* has requested me to publish, and I send you the item for your consideration.

Truly, &c.,
SAMUEL WHITING.

For the Sentinel.

MR. EDITOR:—An article, signed "Milwaukee," appeared in the *Wisconsin* of Thursday evening, condemning a handbill that was posted about the city, headed "Milwaukee to be sold out," and says: "What was the meaning of all this? Why, nothing more than an attempt to obtain a charter for a Horse Rail Road, to connect the La Crosse and Milwaukee and Chicago Rail Roads; and thus give all passengers a choice of passing through our city if they wish, instead of taking the "North-Western Rail Road," which they will do, and are doing, so long as they are forced to take an omnibus, and thereby reach either the Milwaukee and Chicago Road, or the steamships to Grand Haven, on their way to the East."

Supposing this to be the fact, there is no travel passing through Milwaukee but all of it must go by the North-western railroad. For the benefit of "Milwaukee," I will state the facts in the case. Last year the LaCrosse and Milwaukee road carried more through travel from all the towns on the Missisippi, between LaCrosse and St. Paul, than all the rest of the roads in our State and Illinois.—This season there has not been one through passage in twenty, left the LaCrosse road at the Junction, to take the North-western road. As for taking omnibusses here, those that wish to, ride, while others go on foot—but either way does not cost the passenger one cent, and the change is made in thirty minutes, which is as quick again as it is made in Chicago, and as quick as can be made by horse cars here.

The distance by Milwaukee is less, and the fare should be. Everything is in favor of the Milwaukee route, and some few of our own people are grumbling more than all the traveling public. We are getting more than our share of travel, and shall not probably get any increase in travel until travel increases and our city holds out some inducements for people to come here to do business. If "Milwaukee" had substituted Swartzburg instead of our city, when he compared Milwaukee to Erie, he would have been nearer right. If "Milwaukee" can put a stop to the reports that are circulated by opposition routes, he will accomplish what never has been accomplished by man. As I have no stock in omnibusses, hacks, or drays, I will leave them in the hands of "Milwaukee;" but he will find that there are others who will oppose this move, for the reason that they cannot see any benefits to be derived from it, but a great injury to a large portion of our people. The people of our city have got to pay dear for our railroads, and if there is any benefit to be derived from them they need it. We have done our part towards building roads for others, and our people have become aware of the fact.

Yours, A TRUE MILWAUKEEAN.

A MALLET FOR THE YOUNG MEN'S REPUBLICAN CLUB.—TRENTLEDGE, Chairman of the Eighth Ward Republican Club, presented last evening to the Young Men's Republican Central Club, at their head quarters, in the Albany Block, a very neat mallet for the use of their presiding officer. It was the handiwork of a clever German mechanic, Mr. WAGENER, who is a staunch Republican and whose hope is that, with the election of LINCOLN and HAMLIN, the WORKING MEN of our country will once more see good times.

"HOME" AGAIN.—This morning, FRED KUTEMEYER, the well-known proprietor of "the Home," opens his new Restaurant, opposite his old stand, adjoining Spring Street Bridge, and invites his friends and the public to call in and partake of a Free Lunch, between the hours of 11 and 2 o'clock.—There will no doubt be a crowd present to enjoy the hospitality of the "Home" and wish success to FRED.

THE STEAM TUG COL. STEEVER.—An enthusiastic admirer of the new steam-tug, *Col. Steever,* and of our worthy Postmaster, whose name the vessel bears, sends us a communication which we publish this morning. We dissent, *in toto,* from the Colonel's political heresies, but are glad to say a good word for the tug and for the enterprise of those who projected and built her.

A LARGE ESTABLISHMENT.—Messrs GOODMAN, BUELL & PIERCE, at No. 34 Wisconsin street, have opened a store for the sale of all sorts of burning fluids, lamps, light and gas fixtures. Their stock is very complete, their workmen skilful, and their charges moderate. Our readers, who may need any article in their line, will do well to give Messrs. GOODMAN, BUELL & PIERCE a call.

BASE BALL.—Our Milwaukee Base Ball Club play a match, on their grounds, Spring Street Hill, this afternoon at 3 o'clock. An omnibus will leave the corner of Main and Wisconsin Streets, ten minutes before 3, to convey parties to the spot. Members desirous of taking part in the game are requested to be punctual in their attendance.

THE MAYOR'S VETO.—At the request of a citizen of the Third Ward we give place to a communication on the subject of Mayor LYNDE's veto of the ordinance, providing for a Market House in that Ward. We feel bound however, to say, that we think the Mayor, in his message, adduces strong reasons for the course which he has pursued and deserves credit for his independent action.

THE EXCURSION OF THE ORPHAN ASYLUMS will take place on Monday. The steamer *Detroit* will leave the foot of Main street at 9 A. M., and proceed a few miles up the Lake. A pic-nic will then be held on shore and the party return about 5 P. M.

BOHEMIAN EMIGRANTS.—Yesterday a large number of Bohemian emigrants arrived in the city over the Detroit & Milwaukee R. R. Most of them are *en route* for Minnesota where they will make practical husbandmen and good citizens.

A LAKE TROUT.—We are indebted to Captain RICHARDS, of the steamship *Milwaukee,* for a very fine Lake Trout, weighing fifteen pounds, and caught off Grand Haven.

THE facilities for bathing at the Dam are being improved. A number of swimmers resort there nightly.

PUBLIC DOCUMENTS.—We are indebted to Senator DOOLITTLE for a number of valuable public documents.

THE *Atlas* has hung out the LINCOLN and HAMLIN banner over East Water street.

TO-NIGHT the splendid comedy of "Old Heads and Young Hearts," will be played at the Academy, after which, a "roaring farce."

LECTURE.—Mrs. C. M. STOWE, a celebrated clairvoyant, poetical trance speaker and medium, will lecture at Good Templar's Hall, Bowman's Block, on Sunday, at 3 and 8 o'clock P. M. Admittance 10 cents. The public are respectfully invited to attend.—Mrs. STOWE possesses the remarkable power of seeing spirits in her normal condition, and will describe the eucodian spirits of persons in the audience, if requested. *

NOTICE.—Rev. M. ROWLEY will preach in the Summerfield M. E. Church on the Sabbath, 24th inst., both morning and evening.

Progress of the "Plug Uglies" at Baltimore.

We had supposed that the National Democratic Convention had attained the lowest depth at Charleston; but they have found a lower deep at Baltimore. All was peace, quiet and harmony at Charleston, compared with the turmoil, the violence and the disgraceful fights in and out of doors, at Baltimore. The "Plug Uglies" of the Monumental City have been thrown into the shade by the Delegates to the Democratic Convention. Four days have been consumed in the vain effort to settle the claims of contesting delegations — the Convention breaking up in a row at the close of the last day. The majority of the committee on credentials, being in the DOUGLAS interest, have reported to exclude those of the Charleston seceders, in whose places other delegates have been appointed and to admit the latter to the seats thus declared vacant. The minority of the committee, representing ten States, vehemently protest against this course and threaten to bolt if it is sanctioned by the Convention. But if the DOUGLAS men find, as they are likely to do, that their favorite cannot be nominated unless the new Delegates, manufactured to his order, are admitted and the old ones kept out, they will not hesitate to adopt and act upon the majority report. The Chicago *Journal*, in view of the fights, past and to come, growing out of this dispute, says that the committee on credentials are supposed to have made their report, something in this wise:

"The contested seats in Arkansas have been settled with pistols—the survivors are adjudged to be entitled to their seats."

"The Louisiana case has been adjusted with broad swords." "The gallant manner in which Hon. Mr —— run three of his adversaries through, entitle him to that number of votes in the Convention."

"The contest in Delaware is undecided, owing to the breaking of the neck tie of one of the parties. A second trial, according to the rules of P. R., has been agreed on."

The intense animosity displayed by the rival factions at Baltimore shows how hopeless must be every effort to compromise, either on candidates or platforms. The great body of the Delegates from the Free States insist upon DOUGLAS, and will not hearken to anything else. The mass of the Slave State Delegations will not touch DOUGLAS under any circumstances. In this state of affairs, a disruption of the Convention and the nomination of two Democratic candidates for the Presidency seems to be the most probable result. Or even if, by dexterous manipulations, outside pressure and persuasive appliances, the Convention are finally brought to agree upon a single candidate, it will be impossible to heal the many wounds inflicted at Baltimore; to restore the harmony so hopelessly shattered there; or to rally to the support of the ticket, the strength and enthusiasm of the party in the different sections of the Republic.

That "Irrepressible Conflict."

The "Irrepressible Conflict" spoken of by the Prophet Seward, has not exactly arrived yet, but a "conflict" of as great pretensions, for the time being, has come, and is being exhibited at Baltimore. We cannot say we regret its advent. We say welcome the "conflict," and the more "irrepressible" the better, for Heaven knows we want no further partnership with the Southern Fire Eaters. God never made more frank, generous, kind, open-hearted and honest men than the most of the Southern people—but their leaders—the swordfish—the political sharks—the cut-throats—the social vampires—the fire-eating, dirt-swallowing nigger cannibals—who invoke pistols for argument—blunderbusses for reason, and billingsgate for literature.—These pestiferous *fungi* that hang around the out-skirts of the Democratic camp, to act the spies for Black Republicanism, and seek every opportunity to rule or ruin the only national party in our country. These men, we say, are unfit for association with a respectable party, and we have long desired to see just such a "conflict" as the [illegible] speaks of, in order to enable the Democracy to get rid of a class of fossil politicians that would even sour vinegar and dirty a mud-hole.—*Madison Patriot (Dem.)*

Warm words for hot weather. The *Patriot* should keep cool and not allow its angry passions to betray it into such intemperance of language. The anti-Douglas leaders in the South are many of them gentlemen highly distinguished in political life and eminent for their social virtues. To stigmatize them as "cut-throats," "vampires," "sharks," "nigger cannibals," &c., is in bad taste and questionable policy. A reference to the proceedings at Baltimore will show that "pistols," "blunderbusses" and "billingsgate" were as freely used by the friends of DOUGLAS as by his opponents, and that Northern as well as Southern men took part in the frequent "Kilkenny fights" which enlivened the tedious debates in the Convention.

THE BANKS AND THE BANK COMPTROLLER.—Some strictures have appeared in the Madison *Argus & Democrat* upon the management of the Bank Department of Comptroller VAN STEENWYK, and have been made the theme of comment by the *Wisconsin* and other papers. The Madison *Journal* of Thursday last, thus replies to these attacks upon the Comptroller:

> The Banks that are winding up have, in every instance during Mr. Van Steenwyk's term of office, redeemed eighty per cent of their circulation, with specie, as required by law before they were allowed to take up the securities.
>
> Their notes, when redeemed are destroyed and not put again in circulation.
>
> The figures given in the article quoted by the *Wisconsin* are purely fictitious.
>
> All these charges against the Bank Comptroller originated with reckless and unprincipled men who are instigated by private and selfish motives. The Banks of this State were never more secure than now.—The policy of the Comptroller aims towards increasing their security, by the most vigilant watchfulness and circumspection. A newspaper warfare, if encouraged, may produce panic and trouble; it may embarrass the Comptroller and increase his anxieties; but it cannot render him more conscientiously careful of the public interests that he is at present, nor can it prevent the ultimate recognition by the people of his official integrity.

CHIEF JUSTICE DIXON.—A paragraph recently appeared in the N. Y. *Herald*, to the effect that Chief Justice DIXON, of our Supreme Court, was in favor of the election of Mr. DOUGLAS to the Presidency. The Madison *Journal*, in noticing this statement, takes occasion to say that Judge DIXON does not favor the election of DOUGLAS—that, on the contrary, he fully approves of the principles set forth in the Chicago platform—and that his choice for the next President of the United States, is ABRAHAM LINCOLN, of Illinois, a gentleman who is not understood to be particularly acceptable to the friends of Mr. DOUGLAS.

THE WATCH WORDS FOR 1860.—CASSIUS M. CLAY closes a glowing endorsement of the doings at Chicago thus: "LINCOLN and HAMLIN, 'true men' and genuine men. Down with bogus Democracy! Up with the world honored flag of '76, the Constitution, the Union, and the liberties of mankind!"

ANOTHER "NATURAL ALLY" FOR THE NEWS.—E. C PERRIN, the most boisterous Know Nothing speaker in the campaign of '56, is one of the clerks of the Baltimore Democratic Convention.

The Pike's Peak Mails.

Editors Press and Tribune:

HOUSE OF REPRESENTATIVES, Washington City, June 18, 1860.

The bids for Pike's Peak mail routes, established by the present Congress, were decided this morning, as follows:

No. 15,151—From Galesburg, Nebraska, (on the Salt Lake Mail route), up the South Platte, by St. Vrain, to Denver City, 240 miles and back, once a week. For this there were seventeen bids, ranging from $19,000, proposedly E. S. ALVORD, Superintendent of the Butterfield Overland Company, down to $800! by E. F. BRUCE of St. Joseph, Missouri, who is the successful bidder. The two next lowest bids were $2,400 each. Mr. BRUCE's bid is guaranteed by two citizens of St. Joseph, whose pecuniary responsibility is guaranteed in the strongest terms by the Postmaster of that city. I allude to this, because the supply not only of Denver, but of all the branch lines from that place through the mines, depends on the service on this route being faithfully performed. The Department assured me that they would see to it that Mr. BRUCE should carry the mail; and of course, if his guarantors are responsible the contract can be enforced; as by law they have to pay all the cost of carrying the mail, if the contractor fails to do it.

The estimate of the Post Office Department for this route was $19,200 per year. I should have added that Mr. SMOOT, of the Leavenworth bank, who is or has been connected with Mr. RUSSELL, of the Pike's Peak Express, and the Pony Express, put in a bid at $14,750.

No. 15,152—From Denver, by Huntsville to Colorado City, sixty-eight miles, weekly. For this there were fourteen bids, ranging from $8,160 down. Let to H. G. WIEBLING at $2,360.

No. 15,153—From Denver to Boulder, forty miles, weekly. For this there were thirteen bids, from $3,000 down. Let to M. G. SMITH at $894.

No. 15,154—From Denver, by Baden and Tarryall, to Breckenridge; one hundred miles, weekly. For this there were twelve bids, from $10,000 down. Let to THOMAS BRIDGE at $2,495.

No. 15, 155—From Denver, Arapahoe, Golden City, Golden Gate and Mountain City to Missouri City, forty miles, weekly. For this, there were sixteen bids, from $3,650 down. Let to H. G. WIEBLING, at $1,030.

The contracts are to commence by the advertisements of the department, on the 1st of July, 1860, "or as soon thereafter as practicable," a proviso that I regret was inserted; and if the route from Galesburgh to Denver City is put in operation promptly, I trust the quarter and half dollar exaction per letter or paper, on the Pike's Peakers, is soon to cease. If it does not, I feel that it has not been from lack of earnest and persistent effort by, Yours truly,

SCHUYLER COLFAX.

An Expunger.

A day or two since Col. FLORENCE moved in the House of Representatives to expunge the resolutions of censure on the President passed last week. The resolution was laughed out of the House. Its preliminary history is thus given by "Occasional:"

> Talking of Colonel Benton, reminds me that Mr. Buchanan has lately grown quite eager for an Expunger. He wants the record of the Covode Committee, and the crushing censure of the House, sponged from the record. A few days ago while bewailing his fate in midst of a circle of devotees, he exclaimed, in the agony of his feelings, "Oh, that I had a Benton in the House!" whereupon that generous and gallant champion of the distressed, Colonel Florence, who formed one of *coterie*, rose in the majesty of just indignation, and striking his breast in an impulse of inspiring self-sacrifice he exclaimed, "I will be your Benton?" Whether the President took the excellent Colonel into his arms and bedewed his handsome face with warm gushing tears my informant was not able to say.

CIRCUMSTANCES PERMITTING.—In his admirable speech in Cincinnati last Saturday evening, GOV. CHASE, in speaking of the professions of opposition to the behests of Slavery now made by the Douglasites, stated the following capital and appropriate anecdote:

"They make, just now, tolerably good free soil speeches; they go with us just as far as their circumstances will admit, but then their circumstances will not allow them to do much in that way. [Applause.] They are nearly as bad as the old man in Arkansas. He said he was invited by the local preacher to go to a wedding at Col. Smith's! Col. Smith was a kind master, and a couple of his slaves were going to be married, and he was going to allow them to be married by the minister, which you must know is a great privilege. Well, Dinah and Sambo stood up and soon the minister said: "Sambo"—I believe it is usual to address the question to the man first, on such occasions—"Sambo, do you agree to take Dinah to be your wedded wife, to love her through life, or as long as circumstances will permit?" [Great laughter, and a voice—"That's good, Governor."] Well, Sambo wanted to be married, and he said, "Yes, massa. Then the minister turned to Dinah, and said, "Dinah, will you take Sambo to be your wedded husband, to love him through life, or as long as circumstances will permit?" [Renewed laughter.] Dinah blushed, [continued laughter.] if blacks can blush, and said, "I will;" and then he stepped forward and said, "I pronounce you man and wife, according to the laws of God—and of the State of Arkansas!" [Renewed laughter.]

Now, that is about as far as our Democratic brethren will be able to go in free soil.—[A voice—"That's a fact."] All they can do is to be as good Freesoilers as circumstances will permit; and they will find in their case, as in the case of those unfortunate negroes, that the laws of God are materially modified by the laws of Arkansas!—[Great laughter.]

MONUMENT TO THE SIGNERS OF THE DECLARATION OF INDEPENDENCE.—On Wednesday of last week, the Commissioners appointed to select a design and site for a monument to the Signers of the Declaration of Independence were received and welcomed in Independence Hall, Philadelphia, by the Mayor of the city. After some addresses by the Mayor and members of the Commission, the latter repaired to Carpenter's Hall and organized for business. A memorial to the Legislatures of the different States was then adopted, in which it is agreed that the monument shall not cost to exceed $150,000, and that the sums to be contributed by the States shall be in proportion to the number of their Representatives in Congress. The material is to be granite, and, if the necessary legislation can be obtained prior to the 4th of July, 1861, the corner stone will be laid on that day. Afterwards the Commissioners proceeded to Independence Square and selected as a site for the monument the centre avenue, midway between the rear of the Hall and the southern gate.

THE CROWDS OF LONDON.—The Commissioner of the London (England) police has caused an account to be taken of the number of persons entering the city within a given period. The result shows that the number of 706,621 individuals passed into the city by its various entrances, during the 24 hours tested; and, as the day selected for the enumeration was free from any extraordinary attractions in the city, there can be no doubt that the return furnishes a fair estimate of the average daily influx. Of the aggregate, 49,242 entered between the hours of 11 p. m. and 7 a. m.

A CONDUCTOR of one of the railroads terminating in Wheeling, Va., was dismissed from the road last week for having complimented a lady on his train for the Cinderella-like smallness of a foot which she exposed beyond the folds of her crinoline. The company held that if the lady had a pretty foot she was probably aware of it—if not, it was no part of the conductor's duty to inform her of the fact.

THE HON. John F. Crittenden was robbed of his pocket book containing ninety dollars, while in the cars between Baltimore and Washington a few days since. The thief escaped detection.

ANOTHER BOKER-DEAN AFFAIR.—A daughter of Sir Rowland Hill, of the British Post Office Department, has recently eloped with her riding master.

Progress of Garibaldi.

From the London Times of June 5th.

Garibaldi has gratified and almost outstripped public impatience. The preparation, the departure, the landing, the quick succession of decisive battles, and the surrender of the Royal army have followed each other almost as rapidly as telegraphs could tell them. We sit and see it all pass rapidly on, and clap our hands, growing impatient if the curtain should be let down between the acts. This Guerilla chief, although now a great general and the supreme leader of two millions of people, still makes war like a Guerilla chief. That promptitude which success stamps as wisdom and which failure brands as rashness is, in his circumstances, the only chance of victory. With guns and forts, and trained armies, and regular generals versed in the regular startegy of modern warfare as his enemies, with brave, ardent fellows, destitute of everything except stout hearts and strong limbs as his supporters, Garibaldi had to do all by dash, or not at all.

He has done it. He has forced his way into Palermo, he has beaten the King's army, he has driven them into their forts, and he has obliged them to admit their inferiority by consenting to capitulate.

Fast upon the intelligence that the capitulation had been completed, and that the 25,000 soldiers of the King's army were going forth under the pressure of the patriotic bands which had beaten and surrounded them, comes the news that the capitulation has been broken, that the forts and vessels have again opened fire upon the city, that the insurgents have resumed their arms and are swarming round the army, that the city is barricaded, and that amid the devastation which is going on, the troops are deserting, and even a Neapolitan General has gone over to the popular cause. The procession of great events is rapid enough, but unhappily we have them as yet only in outline. Garibaldi is the hero for the present age, when steam and electricity have so spoilt us for enduring the tardiness of old tidings that we should, perhaps, if we got Cæsar's celebrated despatch, quarrel with the comma which separates the *vidi* from the *vici*. But still, when we have quenched our thirst for news, we yearn for a long, quiet enjoyment of the details.

His hope from his own army being evidently gone, the King of Naples betakes himself now in mendicant fashion to those foreign powers whose counsels he has so often rejected, and whose warnings he has treated with scorn. He hopes that those from whom he would endure no intercession on behalf of his tortured subjects will now interfere, when those subjects have righteously risen against his monstrous tyranny, and hold him in their grasp. He has applied to Austria, and it was supposed for a moment at Turin that Austria had moved down a body of 15,000 troops to create a diversion, or even to punish Piedmont for her connivance in this Sicilian expedition. Such consistency did the rumor obtain that French regiments were marched to the point indicated. Their appearance called out the Austrians, and the two rival uniforms stood once more for a moment face to face.

Unfortunately, Sicily is an island. What is still worse, Sicily is an island, the surrounding waters of which are in possession of a fleet hostile to the Sicilian cause.—cause. We cannot hope that the Neapolitan Government will be polite enough to forward the Sicilian accounts of those Royal victories which shine so gaudily in their official garb. From the information before us now we can understand that the original position of Garibaldi and the Neapolitan Generals is counterchanged. It is General Lanza's position which is desperate, and Garibaldi's which is secure. It is said that there were 4,000,000 of scudi in the Treasury of Palermo. It is certain that there are arms and stores in the forts to equip all the youth of Sicily, and guns to make the harbor an uncomfortable anchorage for Neapolitan ships of war.

Of course, the alarm was without foundation. Even Austria is not quite so mad as to fight in such a cause as this; but the prompt movement of the French troops shows how quickly any such enterprise would be met. We are not able to say what verbal comfort Austria may have afforded her ally, but she certainly is not prepared to sacrifice herself in order that he may pursue his career of cruelty and folly. Scared as he was, Francis II. next applied to the Emperor of the French for an armed meditation. The telegraphic message found the Emperor at Lyons, and we are assured that it received an instant reply, to the effect that any interference of France in this conflict was entirely out of the question. The Bourbon, therefore, is left to his fate. Unless he can hold his own against Garibaldi and the people so justly incensed there is none to help him.

Sunshine on the Grave.

When any good man dies, the unconscious World has lost what Time cannot restore.—But when that good man possessed the means and appliances for making the horizon of happiness wide around him; when, placed above the necessity of bidding you take 'the wish for the deed,' he was always quickening benevolence into beneficence, then out of the abundance of many a heart come grateful words.

The recent departure of such a man from the circles of business and friendship in the good old city of Albany has left with the shadows, something of the radiance, of a closing day.

Quiet deeds of generosity are already rising up to call him blessed; even the Will he executed previous to his visit to this city on the 16th of May bears witness for him, remembering, as it does, a faithful servant whose "short and simple annals" the world would never know. And this was only one of a series of unostentatious charities that have sprinkled many a cloudy day with spots of sunshine.

Among the sharp, saucy little crowd of newsboys in this city, there was one we had often noticed, keener, brighter, and more ragged than the rest. At length we missed his shrill cry in the street, and his dirty knowing face at the corners, and we thought that the poor waif of an orphan had found an early grave.

The other day we met in the street an intelligent lad, clean and clothed, gladness dancing in both his eyes, his bright face fairly out from its smutty eclipse. It was our little friend that had whirled in the tattered eddies around street corners. His story was soon told—he had scrambled up, unaided, to the dignity of "bell-boy" in one of our hotels—he who now occupies one of 'the quiet beds of peace' in the "Albany Rural Cemetery," was among the guests of the hotel, during the Convention, and already awaiting the rest he has found too soon.—The intelligence and energy of the little Mercury interested him; he whose shadows already fell to the eastward had nothing to hope from the boy, but much to hope for him. And so he said to a friend from Cayuga County, who was here a delegate to the Republican Convention, "take the lad home with you, my friend, clothe him and educate him, and I will give him a check for a thousand dollars." And so he put out that kind hand of his, so soon to be cold, and helped the orphan up.

When we saw the boy, he was on the eve of departure for his new home—or rather for his home—a swift witness to the voiceless virtues of a noble heart. No Albanian need to be told to whom we refer, while to the stranger, the name now fallen out of daily use will have a significance richer than that of many a living man with whom "charity" is each second word: John L. Schoolcraft. *Chicago Daily Journal, June 20.*

THE GARIBALDI FUND.—The growing interest felt here in the cause of freedom in Italy, is shown in the subscriptions and money that are daily pouring into the hands of the committee of Italian residents, appointed to receive subscriptions to aid Garibaldi. There are seven members of the committee, and each is daily in the receipt of funds to be appropriated in the purchase of muskets and other warlike equipments, to aid Garibaldi in his struggle for Italian independence. It is not known what the aggregate receipts are, but the committee are soon to have a meeting, and arrange for remitting the money direct to Garibaldi.—Arrangements are nearly completed for an artistic demonstration at the Academy of Music, to assist in swelling the proposed remittance. All the leading Italian artists sojourning in the city have consented to appear.—*The World, June 20th.*

GRAND CHANCE TO SECURE A HOME upon such terms that any one who has any industry can do it. Mr. Glidden, who owns one-half of Lockwood & Glidden's Addition, has made me his agent, to sell his lots in said Addition, at unusually low prices, to any one who will improve them, and upon such terms that any one can meet the payments. It is unnecessary to go into argument to convince one who has any judgment that this property, which is situated in the First Ward, must, and will be the most desirable residence property in the city of Milwaukee. It is in full view of the Lake and on high ground which overlooks the city, and a more healthy situation cannot be found. Its location for business men is very desirable, the Horse Railroad passing through it every fifteen or twenty minutes. Much more could be said about this valuable property, but we will only say, any persons who have any desire to purchase any of said Lots, if they will call at my office they can see a map, and I will go with them and show them the Lots, and they can judge for themselves. The terms on which said Lots will be sold are as follows: Ten per cent. in twelve months; 15 per cent. in two years; and 25 per cent. every year thereafter until the amount is paid, with interest at the rate of 7 per cent per annum, interest not to commence until six months after the date of purchase. Here is a chance never before offered, and there is every reason to believe that this property will advance 100 per cent in less than twelve months. The great advantage of the Horse Railroad must, and will make it very desirable. The Lots are free from all encumbrances whatever. A certificate of title will be furnished to any one who may purchase.

THE DEAD WATCHMAN.

On a wet and mossy stone
Shelving from the ocean shore,
Sits a maiden, still and lone,
While around the billows roar.

Outward o'er the water's deep
Gazes she with straining eyes,
Steadfast as the stars that keep
Vigil in the solemn skies.

She is dead!—that maiden fair—
Marble is her pallid brow,
On her stony shoulders bare,
Noteless fall the tresses now.

Sightless are those earnest eyes,
Dried the fountain of her tears,
Still the heart's consuming sighs
Banish all her hopes and fears.

Outward o'er the ocean wide
Reach her white, uncovered arms:
Thus imploringly she died
In the fulness of her charms.

Reception of the Japanese at New York.

From the N. Y. Tribune, June 18.

An hour before the time at which the steamer Alida was expected to arrive from Amboy, the seventeen regiments that were to form the military escort of the day took their position on the south portion of the Battery. An immense crowd of citizens thronged about the landing place, over the battery extension and on the adjacent streets eager to catch a first glimpse of the Orientals. The windows and balconies of the houses overlooking the square were filled with ladies, and probably there never were more human beings congregated in and below Battery Place, than on the occasion of yesterday.

The scene became very animating as the steamer drew near the shore. Salutes from Governor's Island and Castle Garden, "Hail Columbia," from the Alida's deck, and an echo from the bands on the pier, shouting, hand-clapping, waving of handkerchiefs and Japanese flags, surgings of the crowd, and all-stirring sights and sounds commingled, made the momentary picture one that is only seen in a lustrum, and in no American city but New York. Amid all this bewilderment the Japanese were speedily landed, and placed, with due etiquette of precision, in 30 open brouches provided for their use. Owing to the fact that so large a portion of their escort consisted of military, trained to the quick formation of a line of march, the column began to move onward with less delay than is usual on these occasions. By 3 P. M. the head of the procession had reached Trinity Church. The mounted police in the van cleared Broadway from curb to curb, the multitude pressing to the sidewalks in solid mass, and the front guard of the soldiery marched in broad platoons, completely opening the street for the progress of the Embassy.

The carriages containing the Japanese were each protected by a file of police on foot. The Eighth Regiment formed around the whole, and acted as a guard of honor. The total military escort numbered six thousand four hundred men.

The entire length of Broadway, from the Battery to Union Square, and those portions of Grand street and the Bowery through which the procession was to pass, were choked by 1 o'clock with such an inpouring of the populace of our own and adjacent cities, and from the rural districts, as has not been seen since the memorable farce of the Atlantic cable celebration. The people cheered continually as the Japanese passed along, ladies waved their scarfs from multitudinous windows, flags were flying and every possible expression of cordial welcome was manifested; but the three Ambassadors sat unmoved, unreplying, almost unnoticing the tumultuous and kaleidoscopic scene. Very different was the conduct of the officers and attendants. Accepting in the politest manner the brilliant reception given them, they bowed to the right and left; gallantly flirted their fans and ducked their heads in answer to the greeting of the ladies; smoked their cigars with nonchalance; leaning back in their carriages, placing their blue-bordered sandals on the forward cushions; altogether were very much at their ease, and delighted with the city, and people and themselves.

Onward the procession moves, beneath the Imperial Japanese standard, beneath the Stars and Stripes, beneath a thousand banners, emblems and decorations fluttering along the route; onward, beyond the Park and the flag-displaying City Hall; past that through a sea of human beings, between blocks of stores whose roofs, windows and balconies are gay with the glimmering of ladies' robes, and musical with innumerous female gratulations; onward, through the narrower pass of Grand street, and into the broader Bowery, where thousands of juveniles, and parents as simple-minded as their children, gaze with honest wonder at the mystic, tawny, strangely-dressed travelers from "that New World which is the Old;" onward still, and out into the open arena of Union Square, where fifty thousand people are passing east and west, north and south; where, above the heads, and in front of the Church of the Puritans, a high and carpeted platform is visible, which the Ambassadors are to ascend, and thence review the well-appointed troops who have been their escort through the league already traveled.

Accordingly the three Ambassadors and the Princes alighted from the carriages and mounted the dais. The seventeen regiments march gaily by, each saluting the Ambassadors in turn, and receiving a bow or wave of the hand in recognition of the honor. Now the military have all passed by, the Princes resume their carriages, the regimental escort forms around them as before, and they pass down Broadway in the rear of the entire division, until at last the Metropolitan Hotel is reached, where the Japanese are comfortably introduced to their quarters, which comprise the entire second floor of the hotel.

At half past eleven o'clock a serenade, by Dodworth's band, was given in front of the hotel, many of the visitors appearing upon the open balcony, to listen and to wave responses to the acclamations of the crowd, which did not disperse until long after midnight. The illuminated lanterns which covered the front of the hotel added much to the picturesqueness of the scene.

THE U. S. CENSUS—PROSECUTION FOR REFUSING TO ANSWER QUESTIONS.—As the deputy U. S. Marshals are now engaged in taking the census, the following from the Cincinnati *Commercial* is not without interest here:

U. S. Marshal Sifford served summonses yesterday against three citizens, two gentlemen and a lady, to appear before the U. S. Circuit Court, and answer for refusing to make returns of their property, etc., according to the schedule prepared by the Secretary of the Interior, under authority of an act of Congress for taking the census. By the 15th section of that law, authority is given to the U. S. Marshal to prosecute all persons refusing to make the returns required of them, the penalty imposed being $30 and costs.

It appears, however, that taking "the census" is likely to prove quite annoying if not expensive to many persons. The Philadelphia *Inquirer* says:

Almost the very day on which the deputy U. S. Marshals commenced the task of census taking, a class of sharpers, having in their possession a book and pamphlet similar to the kind used by the marshals, made their appearance at different places of business and private residences in the southern section of the city, and after asking the usual questions, purloined whatever they could lay their hands upon. The trick was not discovered until the genuine census-taker made his appearance, and in many cases a most disagreeable delay has been occasioned by persons who refuse to answer his questions, declaring that the proper officer had already paid them a visit. Persons should be on the look-out for these gentlemen. The bogus deputy, when preceding the genuine, places the officer in a position in which he is liable to be insulted and subjected to suspicion.

LOUISVILLE JOURNALISMS.—We expect that the Democratic National Convention will be reunited, if at all, as the hunter's split dog was—two legs up and two done.

—Mr. Breckinridge is a Vice President, and Mr. Buchanan a vicious one.

—All persons should learn to swim—especially if they live in Cairo.

—The motion for a new trial in the great breach of promise case in St. Louis, Effie C. Carstang vs. Henry Shaw, has been overruled. The fair Effie got no money in the case, but those who have read the testimony in the trial must have seen that she received tremendous damage.

TAKE THIS OCCASION TO ANNOUNCE to their friends, and the public at large, that they have removed from their old quarters to their present location, for the purpose of obtaining more ample accommodations for their business, and to keep pace with the requirements of their trade. We have just made heavy additions to our stock, which makes ours the best assorted Family Grocery in town, and we intend to be in future, as we always have been in the past, the first in the market with every novelty of the season. We are receiving goods every week from the East, thereby always keeping our stock fresh and full. Everything pertaining to the trade can be found at our establishment, and we are prepared to sell at wholesale as well as retail, on as favorable terms as any concern in town. Teas, Sugars, Coffees, Dried Fruits, Hermetically Sealed Fruits, and every other article usually found in first-class family groceries, are sold by us, and always warranted as represented. We will sell you a better Tea for fifty cents, than you can buy anywhere else in town for seventy five, and as good a one for forty, as our windy cotemporaries, who make such a blow on TEAS, will or can sell for fifty. We mean what we say, and stand ready to verify it every hour in the day, and every day in the week. We make it a point never to be undersold, and want it distinctly understood that we do our business upon that principle.

Country merchants can always sort up their stock with us, to a good advantage. We will sell you goods by the package as low as any of the wholesale dealers down town.

Butter and Eggs are received by us daily, from our agents in the country.

☞ TERMS CASH.

We cordially invite our friends and customers, and the public generally, to call and see us in our new institution, and make an examination of our goods and prices. Particular attention paid to orders.

St. Nicholas Hotel,

BROADWAY,
NEW YORK.

WHEN COMPLETED—SIX YEARS ago, the St. Nicholas was universally pronounced the most magnificent, convenient, and thoroughly organized establishment of the kind on this continent. What it was then, it remains today—without a rival in sumptuousness, and in the general elements of comfort and enjoyment. The Hotel has accommodations for 1,000 guests, including 100 complete suites of apartments for families. Six hundred persons can be comfortably seated at the tables of its three public dining rooms, and nothing that modern art has devised for the convenience and social gratification of the traveling public has been omitted in its plan, or is neglected in its practical details. The early reputation of the house at home and abroad derived from its magnitude, its superb appointments, and its homelike comforts and luxuries, has been enhanced every year by the unwearied exertions of the proprietors.

SOYER'S SULTANA'S SAUCE,

For Hot and Cold Dishes of all Kinds.

THIS MOST DELICIOUS and appetising Sauce, invented by the renowned "SOYER," for the London Reform Club, is, since his decease, manufactured by the well known house of CROSSE & BLACKWELL, London, from the original recipe. It is the favorite sauce in England and on the Continent, with a high and growing reputation among American Epicures, and is much approved of as a stimulant to the appetite and aid in digestion.

Opinions of the London Press.

"We recommend our correspondent to try MONS. SOYER'S new Sauce, entitled the 'Sultana's Sauce.' It is made after the Turkish recipe; its flavor is excellent, and it affords considerable aid in cases of SLOW AND WEAK DIGESTION."—*The Lancet.*

"Savory, Piquant and Spicy, worthy the genius of Soyer."—*Observer.*

"A most valuable adjunct to Fish, Flesh and Fowl, and should have a place on every table."—*Atlas.*

SAVE YOUR CARPETS!

THE GREAT ENQUIRY HAS BEEN made for a number of years by housekeepers, What shall we put under our carpets to protect them from wear and moth? This grand, valuable discovery was effected and patented April 1st, 1856, by J. R. HARRINGTON, and is called

Harrington's Patent Carpet Lining.

This article having proved its utility has now come into general use, so much so that scarcely a carpet will be put down without it, and its cheapness puts it within the reach of every one. It is warranted to add fifty per cent to the durability of Carpets Oil Cloths and Matting. The details of its merits are too numerous to mention. It can be obtained at any of the principal Carpet Stores throughout the United States, and is manufactured only by the New York Carpet Lining Company. Also, extensive manufacturers of Mammoth Cotton Batting, and Comfortables. The best and cheapest that have ever been introduced in the market.

Richardson's Irish Linens, Damaks,

DIAPERS, &C.—CONSUMERS OF RICHARDSON'S LINENS, and those desirous of obtaining the GENUINE GOODS, should see that the articles they purchase are sealed with the full name of the firm, J. N. RICHARDSON, SONS & OWDEN, as a guarantee of the soundness and durability of the Goods.

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable while purchasers can be imposed on with Goods of a worthless character.

THE ONLY ARTICLE

Unrivalled in Market,

WITH IMMENSE
HOME AND EUROPEAN
DEMAND.

THE REASON WHY, IS THAT BY Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy, and beautiful* and if used by the young two or three times a week, it will never fall or become gray; then readers, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.: GENTLEMEN: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which, in common with a great many persons, I had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad that I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was, but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being ocular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing Establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking.

I am, Yours Respectfully,
HENRY JENKINS.
Cor. Columbus and Carroll sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.
Yours, &c., S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering, was in fact BALD. I have used but two half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it.

Yours, respectfully, D. R. THOMAS, M. D.,
No. 464 Vine street.

The Restorative is put up in bottles of three sizes, viz: Large, medium, and small; the small holds ½ a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

Medical.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR
FROM
THE WORST SCROFULA DOWN TO A COMMON PIMPLE.

He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the stomach.

Three or five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother.

NURSING SORE MOUTH

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of
CANKER
it extends to the stomach, ensuing
DYSPEPSIA
which is nothing but canker on the stomach; then on the intestines and
KIDNEYS
creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is
RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases, which the Medical Discovery is peculiarly adapted to

CURE;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,

DONALD KENNEDY.

DR. CHURCHILL'S REMEDY.

WINCHESTER'S GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,
(Made from the Formula of Dr. J. F. Churchill,)
FOR THE PREVENTION AND CURE OF

CONSUMPTION!

THE SUCCESS OF THIS NEW REMEDY, (discovered by Dr. Churchill, of Paris,) is obtaining the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Disease.

This *Remedy* has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act, *as a preservative with regard to Consumption, just as vaccination does with regard to small-pox.*

What the Medical Profession Say.

"In no instance have I found the Remedy to fail."—*Dr. Churchill.*

"I have used your preparation of the Hypophosphites *with the most happy effect.*"—*C. Fisher, M. D., Lynville, Ill.*

"*I have been astonished in witnessing the good effects of the Hypophosphites.* The statements in your pamphlet are not at all exaggerated. My patient was just entering the last stage of tubercular consumption."—*S. Moser, M. D., Hoosic Falls, N. Y.*

"They exert an important remedial influence over the tubercular disease by *improving the nervous strength and invigorating the nutritive functions.*"—*Dr. W. E. Rust, Morristown, N. J.*

"I have derived more satisfaction from the use of your Hypophosphites *than from all other forms of medication combined.*"—*Dr. Geo. W. Maris, Columbus, O.*

"If, on the earliest appearance of the symptoms, the patient takes daily about ten grains of the Hypophosphites, he will speedily find himself in the enjoyment of such health as he, perhaps, had never known in his life before."

"Winchester's Hypophosphites are unexceptional in their preparation."—Am. Druggists' Circular.

"Mr. Winchester is worthy of all confidence, and devotes himself enthusiastically to these preparations in all their variety of combination. Prepared strictly by Dr. Churchill's method."—D. Meredith Reese, M. D., New York.

"LOWELL, O., July 5, 1859.—I have had several cases given up by attending physicians who are now exempt from all the symptoms of pulmonary disease.—I have used the Remedy in my own case, with decided success. It was regarded as hopeless by physicians and friends, and even by myself, under the 'old treatment.' I am now able to ride, in attending the sick, as many miles, perhaps, in a day, as any other physician in the country."—W. F. Clark, M. D.

"The Hypophosphites are most important Remedies in large class of affections resulting from loss of nervous force."—Boston Medical and Surgical Journal.

Dr. Churchill's Work on Consumption,
IS NOW READY.

The Hypophosphites may be used with incurable success in Chronic Bronchitis, Asthma, Dyspepsia, and in all "Nervous" Disorders.

Make no Delay!

Consumptives, in any stage of the disease, should resort immediately to the use of the Hypophosphites of Lime and Soda. "Winchester's Genuine Preparation" (in simple syrup), in extra large bottles, is "chemically pure"; is the combination proposed by Dr. Churchill "for general use"; and is prepared according to his original Formula.

Scrofula, or King's Evil,

IS A CONSTITUTIONAL disease, a corruption of the blood, by which this blood becomes vitiated, weak and poor. Being in the circulation, it pervades the whole body, and may burst out in disease upon any part of it. No organ is free from its attacks, nor is there any one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which engenders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla

The most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all complaints arising from Vitiated or Impure Blood. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

TELEGRAPH!

REPORTED BY THE N. Y. ASSOCIATED PRESS FOR THE DAILY SENTINEL.

LATEST NEWS!

BY LAST NIGHT'S REPORT

Baltimore Convention!

BALTIMORE, June 22—9 P. M.

The chair stated that the first business was on ordering the main question on the resolutions of the credential committee—1st on Mr. Gittings's minority report.

The resolutions were read in order: First, the majority report, then the minority report presented by Mr. Stevens, of Oregon, and then Mr. Gittings's resolution.

The chair decided that Mr. Crum, as chairman of the committee, had the right to make the closing address, although the main question had been ordered.

Mr. Crum addressed the Convention.

The minority report was rejected by 100 1 2 to 150.

The question was taken separately on the resolution of the majority report; that admitting Massachusetts, was adopted—250 against 2 1 2.

The second resolution, admitting the La [illegible] delegation, was adopted—153 against 97.

The third resolution admitting Ark. was adopted—[illegible] against 62.

The President decided the resolution divisible.

The question was taken upon the three several propositions:

1st. On the admission of the Hindman delegation.

2nd. On the admission of the Hooper delegation.

3d. Giving power to one set to cast the whole vote of the State, if the other set withdraw.

All were adopted.

A vote was then taken on the fourth resolution of the majority report, admitting the contested delegation from the State of Texas, which was adopted, with only 2 1 2 votes in the negative—one from Pennsylvania and 1 2 from Oregon.

A vote was next taken on the fifth resolution admitting Messrs Bayard and Whitley of Delaware. The resolution was adopted without a division.

A resolution giving R. L. Chaffee a seat in the Massachusetts delegation, contested by Benj. F. Hallett, was then adopted—138 to 11[illegible].

Mr. Stuart, at this point, made a motion to reconsider each vote, and to lay the same on the table—it being understood that the motion was not to be put until votes on all the propositions had been taken.

The seventh resolution of majority declaring Mr. [illegible] entitled to the seat in the Missouri delegation claimed by John B. Clark, was then adopted—138 1 2 to 112.

Mr. Cessna, of Pa., then moved to reconsider the vote and lay that resolution on the table. Laid over.

Eighth resolution admitting the contesting delegates from Alabama was next adopted—ayes 1[illegible] 1-2, nays 101 1-2.

Mr. Cessna moved to reconsider the vote and to lay that resolution on the table. Laid over.

The question being on the ninth and last resolution of the majority report, admitting both delegations from Ga., and dividing the vote of the State between them with the proviso that if either refused to take seats the remaining delegates shall cast the whole vote of the State.

A division of the question was called for so as to take a vote on each proposition separately and a long discussion ensued.

Before the vote was taken, Mr Gardner, of Ga., presented a letter from the National Democratic delegates from Ga., and asked that it be read. [Cries of read, read, no, no.]

Mr. [illegible] Worthy, of N. Y., objected.

Mr. Clancey, of N. Y., inquired if one objection would prevent the reading.

The President—It will in this stage of the proceedings.

Mr. Clancey—The gentleman from Ga. can rise to a question of privilege, and read the communication, and the Chair will decide whether he is in order.

Mr. Cessna, of Pa.—I raise the point of order that the Congress of the U. S. refused to [illegible] the Cincinnati platform, and therefore the gentleman is not entitled to a consideration on that account.

Mr. Church—Notwithstanding his demand for the previous question, it was ordered and the resolution admitting the Charleston delegates from Ga. was adopted.

The call for a division of the resolution was then withdrawn and the resolution was lost—100 1 2 to 145. New York voted in the negative.

The whole majority report was adopted except the last resolution.

Mr. Church, of New York, took the floor and said that the N. Y. delegates have had an opportunity to vote on the case of Georgia, as they deemed justice to the Democracy of that State requires coming here with an earnest desire to harmonize with the Democracy of the Union, and act in a manner which will meet with the approbation of Democrats all over the nation. New York desires to move that the original delegation from Ga. be admitted to seats on this floor. He called for the previous question.

Mr. Seward, of Georgia, raised a point of order, that the motion in order was on the adoption of the resolutions already adopted, as a whole.

The President decided that the previous question was exhausted, and no vote on the adoption of the resolutions, as a whole, is necessary.

Mr. Hallett, of Mass., rose to address the Convention.

Mr. Stuart, of Mich., raised point of order that Mr. Hallett was not a member of the Convention.

Mr. H.—A motion to reconsider vote rejecting me was made by gent from Mich.

The President ruled the resolutions already adopted by the Convention were under operation of motion to reconsider and lay on the table.

The chair could not know whether the Convention would lay the motion to reconsider on the table. He did not, therefore, consider the gentleman from Massachusetts yet excluded from the Convention.

Mr. Church raised a point of order that he had called for the previous question, and, therefore, no debate was in order.

The President so decided.

Mr. Hallett appealed to Mr. Church to withdraw his call for the previous question.

Mr. Avery, of N. C., the author of the Cincinnati platform, is surely entitled to be heard in this Convention. (Laughter and applause.)

Mr. Hallett—Sir, I have fought enough for New York to entitle me to this courtesy—the soldier of a hundred battles ought to retire with the honors of war.

Mr. Hallett, of Mass., then took the floor and moved to reconsider the ninth resolution.

A number of points of order were raised and a warm skirmish took place.

Mr. Smith, of Wis., raised a point of order that Mr. Hallett had never been a delegate in the Convention. Mr. Chaffee was the delegate recognized and admitted to the Charleston Convention and Mr. Hallett's name does not appear on the record.

Mr. Hallett felt assured he was a delegate, having been elected, but by sickness of his wife had been detained, and in the sick chamber had made out necessary papers to Mr. Chaffee.

Mr. Stuart, of Mich., moved to lay vote to reconsider on the table.

Mr. Cochrane moved that when the Convention adjourn it be till 7.

A vote by States was demanded on Mr. Cochrane's motion for a recess. Was declared lost—82 1 2 ayes, 168 nays.

Mr. Cessna called for the consideration of the motions to reconsider the question.

The Convention refused to lay the motion to be reconsider. on the table.

New York voting no, amidst intense excitement.

Motion for recess to 7 o'clock, carried.—Great confusion among North-western men followed.

EVENING SESSION.—The Convention reassembled at 7 with a crowded audience. Much interest was excited by the proceedings and heightened by the prevalence of a report that Mr. Douglas had telegraphed to withdraw his name, which was known only by a few.

As soon as the Convention was called to order quite a Congressional struggle for the floor took place, Messrs. Saulsbury, of Del., Cessna, of Pa., and Gorman, of Minn., all rising simultaneously; the floor was given to Mr. Saulsbury who corrected the vote of Delaware, as reported in the evening papers.

Convention ordered previous question; the motion to reconsider vote was then lost, 103 to 149; N. Y. voted no.

A motion to re-consider several resolutions adopted at the morning session, was laid on the table.

Mr. Cessna moved to proceed to ballot for candidates for President and Vice President of the U. S., and on that called the previous question.

Mr. Russell, of Va., Stransberry, of Md., and Henry, of Pennsylvania, rose at the same time.

Mr. Henry moved to adjourn *sine die*.

Mr. Stransberry made same motion.—There was much excitement.

Mr. Stewart, of Mich.—I raise a point of order that motion now be entertained.

President—The motion to adjourn sine die is in order.

New York and several other States called for a vote by States.

Motion to adjourn sine die withdrawn.

Congressional Proceedings.

WASHINGTON, June 22—3 P. M.

HOUSE.—Mr. Morris, of Ill., asked but failed to obtain leave, to introduce a resolution providing for a committee of three to investigate during the recess, all the facts relative to Mr. Fowler's defalcation.

On motion of Mr. Burch, the unfinished business was then transferred to the next session.

The House passed the resolution 86 against 62, reported on Wednesday by Mr. Gurley, from the Committee on Printing, as amended by Mr. Burnett.

Mr. Allen, from the Post Office Committee, reported a bill authorizing a postal contract from New Orleans or Mobile, around the Mexican Gulf, touching at 12 ports, according to Mr. Butterfield's proposition. Referred to Committee of the Whole on the state of the Union.

Mr. Washburne, of Ill., said from the Committee of Conference on the Post Office deficiency bill, that they were unable to agree, and asked to be discharged from further service, and that the House insist, unless with amendments with verbal alterations restoring the inland service discontinued in March, '59, except where the same expired by limitation.

Mr. Miles said it was almost morally certain that the Senate would not agree to the House amendment.

Mr. Washburne had every reason to expect a favorable result.

His motion was agreed to—ayes 85, noes not counted.

Loan and Treasury Bill, a synopsis of which has been heretofore given, passed—88 against 77.

Several private bills passed. Adj.

SENATE.—Mr. Latham offered a resolution directing the Secretary to pay the remainder of Mr. Broderick's salary. Referred.

The House bill for the relief of the 8th Congressional township in Randolph Co., Ill., was passed. Much confusion ensued.

Mr. Mason moved to proceed to Executive session. He believed that unless this day was spent in considering Executive business, that the Senate would be detained here next week.

Messrs. Yulee and Trumbull thought that legislative bills should be finished before the Executive business, as the latter could go over till the next session.

The motion to go into Executive session was defeated, there being but one vote in the affirmative.

Mr. Fitch reported a resolution supplementary to the one already passed, providing that the Secretary of the Interior shall contract for the erection or purchase of a government bureau, instead of the superintendent of the public printing, as provided in the recent law. Passed.

The twenty million load bill was passed.

The Committee of Conference Legislative bill was reported.

Agreed to.

A debate on the California mail service was had.

Recess to 6 o'clock.

Baltimore Matters.

BALTIMORE, June 21—9 P. M.

After a warm discussion, the New York delegation have agreed to support the majority report, except probably in the case of Georgia, on which they may vote to admit the whole original delegation. This settles the question, and to-morrow, if the seceding delegations refuse to take seats, which is probable, the whole vote of the State will be cast by the contestants, and Douglas be nominated by a two third vote.

New York follows suit in the array of personal difficulties. A quarrel has arisen between John Clancey and Wm. H. Ludlow, the former charging the latter with treachery to Douglas. Some warm personal remarks passed between them, for which Clancey holds Ludlow personally responsible, and sends him to night a warlike message.—Should this not be responded to, a personal collision is talked of by Clancey.

MONETARY.

FRIDAY, P. M., June 22d, 1860.

We have nothing new to note in our money market. The demand for exchange is considerably better than for currency, and the selling rate continues firm at 1½ premium. Money is comparatively easy, and good commercial paper goes readily at the banks.

THE weekly statement of the Philadelphia banks presents the following aggregates, as compared with those of the previous week:

	June 11.	June 18.		
Capital stock	$11,759,125	$11,765,960	In. $	6,835

ABUNDANCE OF MONEY AT NEW YORK.—In New York, on Friday, the six months paper of a favorite domestic goods house was discounted on the street at four and a half ℘ cent., the lowest point reached for a number of years.

MONEY AND EXCHANGE AT CINCINNATI.—The Cincinnati *Gazette* of yesterday says:

The money market is unchanged. The demand, which is moderate, is freely met, and discounts are easy at from 8 to 12 ℘ cent., 10@12 the leading rates. Eastern Exchange is rather dull, but rates are steady at quotations; very little doing in New Orleans. No change in the bill market—very little paper offering. We quote:

	Buying.		Selling.	
New York sight	37	prem	⅜@½	prem
Boston	35@37	prem	⅜@½	prem
Philadelphia	37	prem	⅜@½	prem
Baltimore	30	prem	⅜@½	prem

EXCHANGE AND CURRENCY AT CHICAGO—DULL BUSINESS.—The *Press & Tribune* of this morning says:

Exchange is becoming closer. Rates are without change, but bankers do not sell freely, and to each other very little concession is made from the current selling rate, viz: 1½ ℘ cent. premium for currency.

Gold 1½ and the demand continued quite large. It is in request to pay county and State taxes.

Produce paper is wanted by the banks. They find the supply limited, and currency is accumulating.—Relatively business is dull.

We have the following quotations from New York by telegraph to-day:

MONEY—On call 4½@5 ℘ cent; short first class paper 5½@6.

Our report from New York to-day quotes Milwaukee Club at $1,31½@1,33, and Chicago Spring at $1,29—an advance of 1@2c; Flour 5@10c better, common to good Extra Western selling at $5,40@5,65.

This news caused another advance of fully 2 cents in prices of Wheat in our market, No. 1 Spring selling at $1,16 in store and $1,16 on board—the highest point touched this year. There was a brisk demand in the forenoon, and about 45,000 bus changed hands, including a cargo of No. 1 at $1,16 f.o.b., and a cargo consisting of equal portions of No. 1 Club at the same price, subject to 15 cents freight to New York. On 'Change buyers exhibited a little offishness, offering $1,12½ for No. 1 in store, but before the market closed the outside figure paid in the forenoon was refused for the same quality. Extra qualities did not partake of the buoyancy in shipping grades, the disproportion between prices of wheat and flour keeping millers out of the market, and $1,15@1,16 were the outside prices for the best milling samples.

Flour was held firmly, but was comparatively neglected, and no better offers than were made yesterday could be obtained. The transactions were confined to a couple of hundred bbls choice city Extra at $5,60@5,65.

No change in coarse grains. Grain vessels are scarce, and freights nominally unchanged.

CHICAGO MARKET, JUNE 21ST.—Receipts of the articles named, at Chicago, yesterday, were as follows:

Flour, bbls	887
Wheat, bus	10,135
Corn, bus	100,023
Oats, bus	2,888
Rye, bus	20

The *Press & Tribune* says of the market:

Under the influence of the news the Corn market opened heavy, and several round lots changed hands at a decline of ⅛@1c, but, contrary to general expectation, New York came in with an advance, and prices again rallied too and closed at an advance on yesterday's quotations of ⅛@1c. Sales amounted to about 120,000 bus, at 53c for prime River Yellow afloat; 52c for good River Mixed afloat; 48c for No. 2 Canal Mixed afloat; 47@48½c for No. 1 in store; 46½@47c for No. 2; and 43½c for Rejected. The Wheat market was buoyant, and we record a further advance to-day of 3c over yesterday's outside quotations—there being an active speculative and shipping inquiry, and sales to about 45,000 bus at $1,09 for No. 1 Spring; $1,05@1,06 for No. 2 Spring; and 94c for Rejected—the market closing quiet but firm. Flour was in better request and holders asked an advance, which was not acceded to on the part of buyers. There was, however more activity—sales having amounted to 900 bbls at $4,80@5 for good to choice brands of Spring extra. Oats were dull and inactive, limited sales being made at 25c in store, and 30@30½c on track. Rye and Barley quiet. Highwines nominal. Hides unchanged. Wool in good demand and firm. Whitefish quiet and unchanged.—Butter dull. Provisions very firm.

Freights were a shade easier to-day—rates having declined about ¼c. Two propellers were engaged at 3½@4c for corn to Buffalo, and three sail vessels at 7c for wheat to Kingston, and 8½c for corn to Buffalo.

CINCINNATI MARKET, JUNE 20TH.—The *Gazette* of yesterday has the following remarks with reference to Wednesday's market:

There was increased firmness in the flour market today, with a good demand. The sales reached 1,500 bbls at $4,90 to $5,05 for superfine, and $5,20 to $5 for extra. Included were 500 bbls extra family at $5,50. Several lots were taken for shipment to Tennessee.—The receipts continue very light, and a satisfactory reduction going on in stocks, holders are buoyant, and good qualities of all grades are held with more confidence. Wheat advanced 2c ℘ bushel, closing at $1,13@1,15 for red, and $1,20@1,22 for white. Ear corn in good demand and steady at 45@46c. With large receipts of oats, prices declined 3c. Provisions were firm. Bacon was held at 8¾ and 10¾ for shoulders and sides; a few scattering lots were picked up at 8 and 10. Mess pork was to be had at $18 for city; a lot of heavy country sold at that price. Lard was buoyant, and we understand a lot of prime tierce sold at 12. There was a sale of 300 bbls steam rendered head and gut, deliverable at a point on the river, at 10¾. The demand for prime qualities is chiefly from New Orleans. No change in groceries.

BALTIMORE MARKET, JUNE 20TH.—At Baltimore, on Wednesday, there were sales of 4,000 bags Rio Coffee at 13¾@14¾. Stock, 8,000 bags.

FLOUR steady at $5,50 for superfine, with sales of 1,200 bbls.

MESS PORK $18,25@18,50.

PROVISIONS firmer. Sales of 175 hhds bacon at 9⅛c for shoulders, and 10¾@10⅞c for sides. Sales 300 tres lard at 12c.

Sales 250 hhds sugars, part for Cincinnati, at 7½@8⅝c.

Sales 300 bbls Ohio whiskey at 21c.

TORONTO MARKET, JUNE 20TH.—(From the *Globe*:)—The rain of yesterday prevented the usually large attendance of farmers on the market, and the business of the day was not large as is generally the case on Tuesdays. The rain will be of great benefit to the country, the crops in many portions of which were parched for want of it. During the night previous a heavy shower fell in the Gore of Toronto, which was followed here at noon by a very warm growing rain.—For wheat yesterday the demand was more active, at somewhat better prices—the result of the favorable advices by the *Bohemian*, and the consequent firmness in New York. The best wheat sold at from $1,30@1,37½, the latter figure in about half a dozen instances, while $1,35 was quite freely paid. For common and low grades $1,25@1,30 were paid. The average price for the day's deliveries, which amounted to about 2,000 bushels, was not over $1,31 per bushel.—Spring wheat is steady at $1@1,10. Barley and Rye dull and nominal. Oats firm at 32@38c. Flour still unsettled, with light offerings. Prices are a shade better, although it is impossible to quote them higher.—For Superfine $5 was offered and refused; other grades were not sold.

Southern flour is firm at $5,75@6 for fancy; $6,25@7 for extras; and $7,25@8,50 ℘ bbl for superior. In corn there is very little doing. MARINE ITEMS.

FRIDAY—P. M.

SUPPLIES TO THE LIGHT-HOUSES.—The United States schooner *Lamplighter*, Captain Keith, has taken her departure with supplies of oil, &c., for the various lighthouses on the upper lakes. She was laying at anchor yesterday on the Flats.—*Detroit Free Press.*

A LAKE PROPELLER BURNED.—SARNIA, C. W., June 21.—The propeller *M. B. Spaulding*, of Buffalo, loading with lumber at Forrester, on the Lake shore, was burned early yesterday morning; also 1,000,000 feet of lumber on the dock. They captain and crew had a narrow escape, they being asleep. The fire is supposed to have been set.

LATEST FROM LAKE SUPERIOR—RUMOR OF A PROPELLER BURNED ON LAKE HURON.—The steamer *Montgomery*, Capt. Nicholson, arrived from Portage Lake and Marquette last night, with passengers, 265 tons iron ore, and 60 tons pig iron—the cargo for Wyandotte. Capt. Nicholson reports being spoken by Capt. Kotter, in the river St. Clair. Capt. K. said that on Tuesday evening, a light, as of a burning propeller, was seen off Forresville, some 15 miles, but nothing further was known. It seems hardly possible that a steamer could have been burned at that time without more definite news having reached us during yesterday.

The *Montgomery* brought to the Saut, and transferred to the tug *S. C. Ives*, a steam pump from Marquette, to be used on the schooner *Rebecca*. It was believed that the vessel could be got off.

The steamer *North Star* was expected at Marquette on Tuesday. Fogs prevail on Lake Superior to a disagreeable and dangerous extent.—*Detroit Advertiser, 21st.*

NEW PROPELLER.—Mr. Godfrey Cantain is building, in the yard opposite Barclay's foundry, a neat little propeller, intended to run between Mackinac, Northport and Grand Traverse. The hull is nearly completed. Its length is 64 feet over all, breadth of beam 15 feet, depth of hold 6 feet. The Grand Traverse region is being settled with great rapidity, and if this new boat goes into that trade she will be certain to quickly realize golden profits.—*Detroit Tribune.*

RAILWAY MATTERS.

NEW RAILROAD MAP.

Messrs SAGE & SONS, of Buffalo, are about to issue a new edition of their Railroad map. It is highly commended by those acquainted with its character, and the fact that, although they might have issued it in March, and sold large numbers, they have determined to wait till full and reliable returns were received from distant roads which, if the busy season attending the old year's business, and opening the new, was unavoidably delayed by many important lines, is a proof of their determination to excel all others in correctness and reliability.

RAILROAD EARNINGS.

The traffic returns of the Michigan Central Railroad for the first week of June is as follows:

First week, 1860	$29,432 16
First week, 1859	26,630 76
Increase	$2,801 40

The whole month of June last year gave $119,770 60.

GREAT WESTERN RAILROAD—TRAFFIC FOR WEEK ENDING JUNE 15, 1860.

Passengers	$17,316 19½
Freight and Live stock	10,904 03
Mails, &c.	1,805 11½
Total	$29,825 37
Corresponding week last year	33,180 23½
Decrease	$ 3,354 86½

VERDICT AGAINST THE N. Y. CENTRAL.

The jury in the case of JARED D. MATTESON and wife against the New York Central Railroad Co., which was on trial at Utica last week, gave a verdict for the plaintiffs for $7,155.

NEW YORK AND ERIE RAILROAD.—The earnings of this Road for the month of May, compared with the same month last year, were as follows:

May, 1860	$416,883 10
May, 1859	345,011 39
Increase	$71,870 71

By virtue of a decree in the United States District Courts, obtained by the holders of the 3rd mort. bonds, Mr. CHARLES B. HALL has been appointed Receiver of the Milwaukee and Chicago Railroad, with authority to operate the same.

LARGE RAILROAD AND CANAL RECEIPTS.—The receipts of the New York Central Railroad for the past eight weeks, says the Syracuse *Journal*, have been so great that we think we are warranted in saying that the receipts of the year will foot up to seven millions of dollars, or about twice the gross receipts of the State Treasury, and more than the gross receipts of all the State Treasuries of all the New England States put together. It is only by making such contrasts as these that the reader can place a proper estimate on the power of a first-class New York Railroad.

The large business of the Central Railroad is not, we are happy to say, purchased by any falling off in the receipts of our Canals. On the contrary, the receipt of the Canals are also on the increase—the whole showing that the West must have a superabundance of flour, pork, grain, and all that sort of thing. The business of the spring will probably be followed by business equally gratifying in the fall, as the growing crops of wheat and corn—corn especially—show that the produce dealers will have as well filled barns to draw upon in October as they did in May.

MINNESOTA RAILROAD AFFAIRS.

We are informed that the Transit Railroad Company, and the Minnesota and Pacific Railroad Company, both of whose roads are advertised by the Governor to be sold at public auction on the 22d of June inst., have made application for an injunction to restrain the Governor from selling. What the result will be we have of course no means of knowing.

DR. MOTT'S
CHALYBEATE
RESTORATIVE
PILLS & IRON.

AN APERIENT AND STOMACHIC preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innocuous in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhoea, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world, as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendent Costiveness.

In unchecked Diarrhoea, even when advanced to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of the price. All letters, orders, etc., should be addressed to

City Auction Room and Land Office.

I AM NOW REMOVED TO THE STORE No. 163 East Water street. It is directly opposite to Mitchell's Bank. I think I have now one of the best stands for auction business in our city. All who have any business in my line will please give me a call. CALEB WALL.

The firm of OGDEN & WALL is dissolved. I will at present occupy the same office for real estate purposes, and attend to all business, such as obtaining loans, selling mortgages, and renting houses. Insurances can be obtained in first class Eastern Companies at current rates. In the course of two weeks I intend to make my annual report of the improvements which are now going on in the various Wards of our city. The impression with some is that no improvements are going on, which is a mistake. Milwaukee city is yet alive and going ahead, and will continue to do so. Never was there such an opportunity for capitalists to invest money, as now offers. One thing I would request: all who have made contracts for buildings will please inform me, so that I can report the same. CALEB WALL,
